

DAXKO Operations provides your association with Online Registration links that direct registrants to the Program Guide page associated with a specific tag(s). Your association can place this link on your website so registrants will easily locate a specific program.

Retrieving the Tag Link

From the Program Guide click the icon to copy the link to your clipboard. You may then paste the link in your website or in an E-mail. The link that is generated will always direct the registrant to the most current programs included in the tag(s).

The screenshot displays the 'Program Guide' interface. At the top, there are two panels: 'Select Branches/Sites' showing '1 Branch' and '4 Sites' with 'view' links, and 'Show/Hide Past Programs' showing 'Currently Hiding Past Programs'. Below these are buttons for 'Register', 'Create Roster', and 'Reports: Program Enrollment' with a dropdown arrow. Further right are 'View for Selected' and 'View for All' buttons. The main section is titled 'Narrow Search by Additional Tags' and features a tag 'Swim Lessons' with a link icon circled in red. A callout box with the text 'Click here for the link icon.' points to this icon. To the right of the tag is an 'ADD TAG' button and a 'Session Count: 65' indicator. Below the search area is a 'Program' section with a table of results:

Session	Branch/Site	Days-Time	Date Range	Fee Range	Availability
<input type="checkbox"/>	Adult Swim Lessons				
<input type="checkbox"/>	Child Care & School Groups				
<input type="checkbox"/>	Kids Fishing Camp				
<input type="checkbox"/>	Parent Child Swim Lessons				

DAXKO recommends setting up direct links to specific programs on your association's website. Below is an example of how you can utilize the Online Registration Tag Link on your website:

YMCA Aquatics Programs
